

Welcome to Geary Community Hospital's Clinical Student learning experience! You are an important part of the next generation of health care providers, so you are important to us.

In order to keep our patients, visitors, students, and employees safe, we have implemented a structured student intake process. Because of the many student requests and established rotations, not all student requests will be honored.

Please note the following information:

1. A Clinical Program Agreement must be current and on file. Please have your instructor check on this and contact the GCH Education Coordinator (cjones@gchks.org)
2. Complete the [Clinical Student Experiences Application](#)
3. Submit the clinical objectives for the requested experience
4. Please allow 2-3 weeks to process this request. Submission of an application does not guarantee placement.
5. Upon acceptance, additional instructions and documents will be forwarded for your completion PRIOR to the start of your clinical experience.
6. Please note: It is required that all students show proof of FLU immunization between the dates of Oct 1-March 31
